

Welcome to Learning Without Tears®

Parent & Family Setup Guide for Digital Products

This guide helps parents and families set up and manage **Learning Without Tears digital products**. It reviews the administrative portal [+Live Insights®](#) (PLI), assigning licenses to your students, and how to access and begin using the program(s).

+Live Insights (PLI) is the administrative dashboard used to activate, set up, and manage Learning Without Tears digital licenses. PLI is used to:

- Activate purchased licenses
- Manage rosters and users
- Assign products to classes and students
- PLI is for setup and management, not where educators & students complete lessons

Getting Started Overview

The high-level steps to set up and use LWT digital products are:

1. **Activate Licenses** – Follow the link in the digital license activation email or log directly into [+Live Insights](#) to unlock your licenses.
2. **Setup Educators & Students** – Add educators and create classes & students in +Live Insights.
3. **Assign Licenses** – Licenses must be assigned to users before they can access the program(s).
4. **Access Programs** – Use the links below or select the tile in +Live Insights to access the links to the programs.

Application Links

To the right are direct links so that educators and/or students can use to access the application(s) once setup is complete and licenses are assigned.

Note: you can also access these application links through +Live Insights.

Educator Application Links

- [Keyboarding Without Tears®](#)
- Wet Dry Try® – [Download app](#)
- Interactive Digital Teaching Tool
 - [Handwriting Without Tears®](#)
 - [Building Writers Cornerstones™](#)
 - [Readiness & Writing](#)
 - [Letters & Literacy](#)
- [Pre K Interactive Teaching Tool](#)

Student Application Links

- [Keyboarding Without Tears®](#)
- Wet Dry Try® – [Download app](#)

- [GSS Student Learning Apps](#)

For more information about setting up digital products, please visit our [Frequently Asked Questions](#) page.

If you purchased Keyboarding Without Tears licenses, please review pages 2 and 3 of this guide for more details on getting started.

Keyboarding Without Tears®

Parent & Family Setup Guide

Welcome to Keyboarding Without Tears! We'd love to help you get your child(ren) started, but first we need to make sure you activate your licenses, create a class, and provide them with the appropriate graded license. +Live Insights (pli.lwtears.com) will help you through these steps and give you access to student activity previews, student settings and reporting.

Activate License(s)

Login to pli.lwtears.com using your registered Learning Without Tears account. If you do not have one, select the Sign up now button to create one. Once you have logged in, you will see a box where you can activate licenses. Select the pink Activate Now button to activate your license(s).

Setting children up

To license children, we need to first create a class. Select the My Classes & Students navigation from the left. Then select the "Create Class" button in the top right hand corner. You will be asked to fill in the information necessary to license your child(ren).

1. Fill in the Class Name, School Year/Term (instruction year) and how the Secret Code will be entered. Then, click on Next Step. Secret code can be changed on the next step, if necessary.
2. Fill in the first and last name of your child and their grade. Click into the Secret Code field and choose what works best for your child and select Save Secret Code, then select the Next Step button in the bottom right.
3. Using the Keyboarding Without Tears dropdown, select the "assign" button on the far right of their name then select the Next Step button in the bottom right.
4. Review the information you have input and select Confirm & Create Class.

Note: All 3rd–5th graders will automatically start at the beginning of week 7 of the curriculum to skip foundational skills. To change this default, go to My Classes & Students, select the 3 dots on the class tile, select Manage Class Settings and uncheck Skip First 6 Weeks.

1. Class Details

This is the first step in the creation of your new class. Please take a moment to fill out the form below.

Class Name

Logging In

You will want to set up your child's device prior to their first login. In +Live Insights, you have a PIN listed right below the logo in the left-hand corner. You will need this for the device set up.

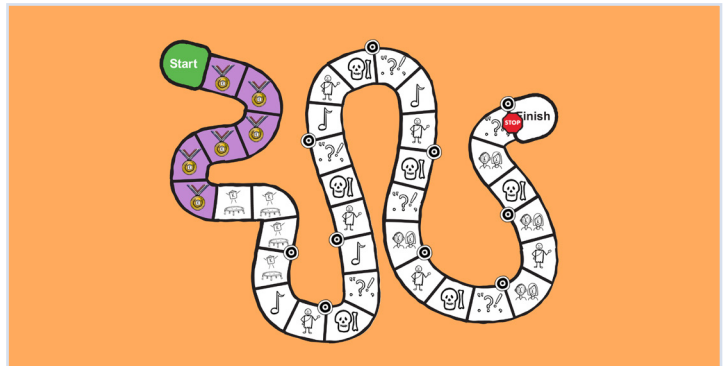

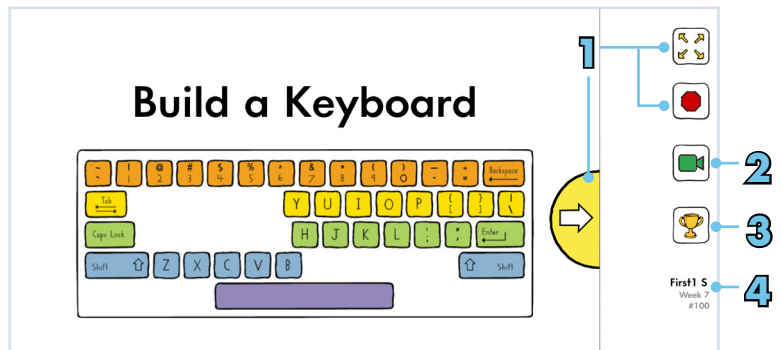

For the first login, go to [kwtears.com](https://www.kwtears.com) and select Student Login. Using your PIN from +Live Insights, enter it on the login page where it says ENTER TEACHER'S PIN. You may wish to bookmark this page for easy access.

Next, when your child logs in for the first time, they will go to [kwtears.com](https://www.kwtears.com), select Student Login and select their name. They will be asked to enter their secret code and they will be ready to begin!

These are the elements children will experience:

1. **Easy Navigation** – children have icons to help navigate from one activity to another. For best user experience, expand to full screen.
2. **Instructional Videos** – children will automatically see a video the first time an activity type appears. Plus, students can view the video anytime by selecting the green video icon.
3. **Rewards** – this icon shows children where they are on the 36-week path using a fun, colorful game board.
4. **Stats** – this lets children know exactly where they are in the curriculum.
